Ensuring you get the best hospital care

Bankmed is committed to ensuring you receive safe, high-quality care should you be admitted to hospital. We try to work constructively with hospitals, Healthcare Professionals and other clinical staff to improve quality and safety and to address any concerns our members may have, as they arise.

We encourage you to take your concerns directly to your Healthcare Professionals or hospital, but should that prove to be ineffective we are happy to relay your concerns or complaints (and compliments) to the relevant professionals or managers, and to assist you to have them addressed.

Your feedback is important for us to assist you in resolving your current issues, and to prevent further harm, discomfort and dissatisfaction in the future.

Tell us about your hospital stay

The purpose of this form is to make it possible for us to provide the hospital with feedback. Please provide us with a detailed account of the events that occurred so we can contact the hospital on your behalf, particularly when a hospital admission has resulted in harm to you or a family member.

Kindly use this form to assist us by providing information that can identify when and where your care took place, who was involved, and what happened to you or your family member.
